## Items of Local Interest.

The colored boys who went north last Spring, are coming in to spend the winter lounging around, and eating off their parents.

### To Teachers.

Mrs. Lewis Walker asks the trustees to come in and get notices for election. The law requires them to be put up, so attend to this at once.

Don't forget that the ladies of the Baptist church will serve ices and cakes in room below Record office door Saturday from 2 to 6 o'clock. Proceeds for church. Admission 15cts.

### The Fair To Fly.

Judge Saulty and Congressman Gilbert are billed for speeches at court house Monday. Come in and hear them. They invite their opponents, so a big wool-pulling will doubtless be had. Come in, hear, then pick your man.

### A Auto Suicide.

The large, bay mare, which has been pulling the delivery wagon for Mr. Adams, the up-to-date meat man, ended his life yesterday by falling and breaking his neck. Mr. Adams says the mare has been somewhat despondent for several days, and had little to say to any one.

### Hauling Water.

The mill, electric light plant and Sweeney's livery stable have been hauling water for some time, all the cisterns being dry, or too low to spare water for stock. The light plant had to close down at ten o'clock for several nights.

### Back From New York.

Danville Advocate.—Miss Minnie Eastham has returned from New York where she purchased a complete line of the fall fashions in millinery goods. She has secured Miss Nannie Warren, an expert trimmer of Cincinnati, to assist her. The date of the opening will be announced a few days later.

### Glee Club.

Harrodsburg cor. to Danville News: The Harrodsburg Lyceum Course will begin September 17th, with the appearance of the Chicago Glee Club. This club was on the program for last winter and was usually well received here and will be welcomed again most heartily." At Lancaster court-house Saturday night, Sept. 20. The court room will be comfortable.

### Big Sale of Hogs.

Victor Lear sold to Lawson & Fox 209 hogs, which averaged 210 pounds at seven cents. Mr. Lear fed all the hogs, and they were about the prettiest lot delivered in this section.

## CHANCE OF A LIFE TIME.

It behoves Garrard County to Put  
Forth Every Effort Now. The  
Railroad in Our Grasp.

As Danville people had asked a hearing of the Louisville Commercial Club in which they were to set out the whys and whereabouts in their favor, a lot of progressive Lancaster citizens concluded to also lay their claim before the Louisville people and show them that we are still in the fight for the Southern extension and why Louisville should stay out of the scramble. Consequently, a large delegation of our prominent business men made arrangements to go to Louisville yesterday, where they met the Louisville business men last night and showed them some of the many reasons why the Southern should be built through Garrard instead of paralleling its own road to Danville. As we go to press we have not heard what the Louisville people did, but what we want them to do is to keep hands off in this fight. We have Danville beaten, and their appeal to Louisville for aid is like the drowning man grasping at a straw. That road is coming this way, and, as we have the thing clinched, what we want to do now is, finish up the few remaining miles of right of way, which is through territory easily secured, but which should be put in black and white, as this is the two-thirds now signed for. The securing of this road means everything to Garrard county, as we have been preaching for several years, and now it is right in our grasp. Danville has made a hard fight, but she couldn't deliver the goods, that is she has not done so up to the hour of our going to press, and we will wager our hat she never does. Danville is expected to see to it that the company has no obstacles in Mercer county, if she is to be given the road, and—well, Mercer knows which side of her bread is buttered, so have no fears on that point.

Some one started the report in Louisville that "Lancaster was out of the fight." This led the Louisville people to throw a crumb of comfort to Danville hustlers in calling an open meeting of the Commercial Club. Mr. John Farra, to whom all the credit in this matter belongs, learned of the move, and went to Louisville, the result being that Lancaster was asked to be present and say her say. The delegation which went down last night is composed of men who are the leaders in Lancaster's business affairs, and it's a safe bet they told our Louisville friends a thing or two. Louisville can not afford to take sides in this fight, and it stands to reason that no partiality will be shown, but they are business men of enough ability to see that the Lancaster route is the best for all concerned.

As much ado is being made over Louisville's attitude in the matter, we will give our readers the following letters, which were sent to Prest. Spencer at time they were written:

### BOARD OF TRADE.

Louisville, Ky., Sept. 23, 1899.  
Mr. Samuel Spencer, Esq., President,  
Southern Railway, New York, N.Y.

Dear Sir—We learn that a preliminary survey for the extension of the Southern Ry. has been made from Burin to Jellico, Tenn., via Lancaster and Brodhead, Ky.

Upon investigation we are lead to believe that the survey made via Lancaster and Brodhead, on to Level Green and Jellico, is a most desirable route for freight and general business for the road. This section is practically undeveloped so far as railroad advantages are concerned, and it is a very rich agricultural section, producing wheat, corn, hemp, tobacco and live stock.

A road penetrating this section of Garrard county could practically have no competition, and would open up a vast amount of business for the road and the city of Louisville, which we are very desirous to have.

We trust, after your investigation of this line (via Lancaster) you will accept it. We heartily endorse everything that has been done by the people of Garrard county and Lancaster for the promotion of this enterprise.

Very truly yours,

(Signed) C. C. Mengel, President,  
COMMERCIAL CLUB.

Louisville, Ky., Jan. 1st, 1901.  
Hon. Sam'l Spencer, President, Southern Railway, 80 Broadway, New York.

Dear Sir—in view of the fact that the Southern Railway has just placed an engineering corps in the field on the Burin Jellico extension we feel justified in calling attention to a matter which we think is of equal importance to the road and to the business interest of Louisville. From our knowledge of the situation, we are confident that the route from Burin through Garrard Co. via Lancaster on the Southern connections at or near Jellico will be an ideal route, as far as business both to your road and to the merchants of Louisville. It opens up a portion of Kentucky, now practically undeveloped which would yield a vast revenue of traffic to the road and would bring the people of that section in closer business relation to the merchants of Louisville. We are reliably informed that in the county of Garrard on this route, a saving of a mile or more can be made over the former preliminary survey as made by the Southern and a better grade secured. We feel a great interest in this mat-

ter and heartily endorse the people of Lancaster and Garrard county in what they have done, they being the first to propose this connection. If built this road would place us in more direct communication with the business interest of the whole town, and we respectfully request that you give your very careful consideration.

Yours truly,

Sam P. Jones, Pres't.

Next Monday is county court, and our collector will be on the streets. We trust those in arrears will arrange to pay him, as we need the money.

Seals Ready.

Mr Adams tells us the seals at the stock yards have been repaired and are in perfect condition. He is well equipped now for stockmen.

Two Houses Burned.

The house of Frank Gastineau, at Flatwoods, was burned Saturday night about half the contents being saved. Sunday afternoon, the house of Will Goins, on Buckeye pike, was destroyed, only a portion of contents being saved.

Linen Shower.

The W. C. T. U. will give a "Linen Shower" at Mrs Sam Haselden's Thursday afternoon for benefit of mountain schools. Come, and bring any article of clothing you can spare, old or new.

Putting In Heaters.

The Citizens National Bank is putting in a large furnace, which will heat both rooms and take the place of two stoves. The work being done by Mr. Wm. King, of Danville, an expert workman in that business. Mr. King will be here for a few days, and if you want any work in that line, will be glad to talk with you.

The Colored School.

Prof. Louis A. Leavell, principal, tells us the school will open next Monday, and a large attendance is promised. He is thoroughly equipped for the place, and is one of the best educated colored men in the state. The assistants are Isabelle Overstreet and Florence Adams.

Bro. Robinson Transferred.

Rev. Leonidas Robinson, whose transfer to Newport was mentioned in last issue, left for that place Saturday, his family going at the same time. We regret to part with Bro. Robinson, as he was a good worker for all that was good. He was especially fine in temperance work, and will be missed sadly by those who are opposed to whisky and blind tigers. The Record wishes Bro. Robinson well in his new field.

Chief Rothwell Improving.

The many friends of Chief Samuel Rothwell will be glad to hear that he is improving, and his suffering is not so severe as last week. His leg is weighted and Dr Kimball thinks he will fully recover from the fall. There is not a bigger hearted or cleverer man in Garrard county than "Big Jim," nor one in whom the general public feels more interest. He could have escaped from the fire without a scratch, but after reaching the stairway, he thought of our foreman, Tribble, and another young man sleeping in the building and went through flames to reach and save them. This noble act required his escaping thro' the window and making the jump which crippled him and almost cost his life. We read of such acts of bravery, but seldom have them brought to our door.

Why Stand Ye Idle?

We never look on the dark side of anything, if there is a spark of encouragement for the better, but we must confess that the prospects for the rebuilding of the hotel and opera house this fall are slim, quite slim. The company has never had a meeting, and we have been unable to learn anything of its intentions. As stated in last issue, the editor of this paper made up \$1,600 in donations, and could have made it \$2,500 if work had been commenced this fall, but the company held no meeting, and we concluded to rest on our oars. If all members of the company do not wish to rebuild, it seems that another company could be organized, as the investment could be made to pay, and pay well, provided the contracts for building were properly made and bonds for faithful performance of same be taken. Every one is painfully aware of the need of the buildings, and we are firmly convinced that a company could be organized in a very short time for that purpose. There is certainly enough interest felt in Lancaster's welfare to bring this about. Harem-scarem "investments," 44-11-44 skin games, "Heres your chance to get rich" schemes and glib-tongued strangers ought to be given a wide berth until Lancaster gets an up-to-date hotel and opera house, and we believe we have enough public spirited citizens to bring this about.

Meeting Mexican War Veterans.

The National Association of Mexican War Veterans will hold their annual meeting at Paris, Ky., Sept. 25. All survivors of the Mexican War, their widows and children are invited to be present. Address Col. J. C. Craddock, Paris, Ky., or 1st Vice-Pres., W. S. McChesney, Lexington, Ky.

A Mistake.

The Harrodsburg Herald says that J. M. Rothwell, of this city, may have some trouble in his race by reason of having sent a challenge to Col. Ed. Gaither. It is true Mr. Rothwell and Col. Gaither did have a little misunderstanding at one time, but no challenge is in existence, and we know whereof we speak.

Well-Known Young Man.

Frank C. Tevis, aged twenty-seven years, merchant at Lawrenceburg, died at the Holman House Tuesday afternoon at five o'clock of peritonitis. He was born in Madison county, and was a member of a well-known family of that county. He had been engaged in business about four years. Mr. Tevis was a prominent Mason, and was buried at Richmond Thursday with Masonic honors. He was a member of the Presbyterian church. His father, mother and a brother survive him. He was a nephew of Mesdames T. B. Walker, W. O. Riggs and B. F. Hudson, of this city.

Hurt in Runaway.

Danville Advocate.—Mrs. Lizzie Rice, who resides about six miles from Danville on the Lancaster pike, had a very narrow escape from instant death Wednesday evening, while driving near the home of Mr. Churchill Yeager. The horse being frightened and started to run for an open gateway and succeeded in getting through himself, but the buggy caught and overturned by striking the side of the gate and Mrs. Rice was dragged a considerable distance under the overturned buggy before she succeeded in extricating herself. She sustained a very severe fracture of the right hip and was otherwise considerably bruised about the head and shoulders. Dr. Elliott, of Bryantsville, attended her.

Shelby Tribble, of this office, who was injured in the Franklin Institute fire, is still at his mother's, in Richmond, but hopes to go to work in a few days. We have been having a hard row to hoe, but here is this issue, lacking in news, but we hope due allowance will be made. We could get another man, but those who are living around idle are not the kind we will permit in our office. All the good men are at work, and it's hard to find a temporary printer. "Blacksmiths" are plentiful, but they are too expensive a "luxury" to have around the office.

Former Garrard County Man.

We had a most pleasant call from Mr. Wm. L. Collier, brother of Mr. Moses Collier. Mr. Collier left Garrard during the war and located in Illinois, where he has been very successful in farming and other business pursuits. Like "Uncle Mose," he is a big hearted, noble gentleman, and makes friends of all with whom he meets. He will return to his home in a few days.

LOUIS LANDRAM.

Entered at the Post Office in Lancaster, Ky., as Second-Class Mail Matter.

Lancaster, Ky. Sept. 18, 1902.

#### Col. Walton Withdraws.

His many friends regret that Col. Walton has withdrawn from the railroad commissioner race. He had a strong following, and they are sorry they will not have a chance to show their high esteem by working and voting for him. Here is his card:

A year or more ago, when I was foot-loose, having either sold or leased the several papers that I had, the thought occurred to me that in view of party service and former connections with railroads of whose conduct I had some knowledge, as well as of their needs, and of the necessity of proper restraints, that I might ask and obtain the office of railroad commissioner in this district. No one solicited me to run and I announced my candidacy entirely on my own volition. My reasons for quitting the race are, that I have a daily newspaper on my hands which requires my constant attention, making it impossible for me to make a canvass in the short time that the committee named for the nomination. The action of the committee, I believe, was ill-advised and in the interest of a favorite, else the nomination would have been deferred until the usual time next spring. I made the attempt to buck against the machine, but it was like the performance told of in Acts 9:5. It was bound to its idols and no amount of coaxing or threatening would move it. More worthy men than I have felt the force of the machine and know the utter futility of going against it. The refusal of the committee to rescind the snap action, killed my aspirations, under the circumstances, as the instances of the office seeking the man are few and far between. He has to go after one if he wants to get it, and I do not want one that bad. Therefore, I quit. I do so, however, without malice and without desire for revenge. I am a Democrat by birth and by principle, and always submit to the constituted authorities no matter how wrong I may think their action. I have never held office nor have I ever asked for one before. There is absolutely none of the make up of a candidate in my composition. I have never asked a single man to support me nor have I ever felt that I could do so, without to some extent sacrificing my independence. Hundreds of good friends have, however, proffered their aid and support, and to them I return my sincere thanks and assurance that they will always occupy a warm place in my heart. The newspapers, almost without exception, received my candidacy with favor, and the complimentary things they have said about me would take away any sting my decision might have occasioned if such were the case.

Pledging my support to the nominee, whoever he may be, and thanking those who have stood by me from the bottom of a grateful heart, I leave the pursuit of office to others to whom

it is more compatible and resume my place in the ranks, never again to ask for political preferment for myself.

W. P. WALTON.

The Danville People Have Tough "Proposition."

Harrodsburg Herald.—The various press reports sent out from Danville are to the effect that the necessary amount had been subscribed, and a quarter of a million could have been readily secured for the extension of the Southern railroad. We would like to call attention to a few obstacles that they will probably encounter on their road to prosperity. First. The matter of forcing a right of way through \$100 an acre blue grass farms and passing within close proximity to farm houses and out buildings, would require endless litigation, cost upon cost and carrying it through all of our lower courts, up through all of the various Federal courts would require thousands of dollars that does not appear at the right of some name-dame plume. In 1886 Mercer county voted the Louisville Southern railway \$150,000 in bonds, and there yet remains, including expenses and accrued interest, about \$40,000 of this sum unpaid. Are Mercer county people going to pay a tax until this \$40,000 has been liquidated? We are informed that the railroad made a contract with Burgin people in order to get their support, that if the vote carried that they would continue to run the trains to Burgin and connect with the Clinchian Southern at that point. They guaranteed to run as many as one passenger train daily to and from Burgin. Are the Burgin people going to let the railroad annul its contract without objection? Third. Under section 201 of Kentucky Statutes, it appears that should the road build the proposed line to Danville that it would be violating the Kentucky Statutes in running a parallel line with another road which is being operated by a lessor company, whose stock is largely owned by the road proposing to build the paralleling line. The Danville people must remember that they must put up the money with which to pay all the court cost, besides paying for the right of way, which will cost them anywhere from \$35,000 to \$50,000.

#### Strong Attraction.

The Chicago Glee Club has five strong characters, which stand at the top in standard, secular and sacred music, together with plantation and humorous songs. The press endorses them all over the country. The Atlanta Journal says: Each one became on appearance at once a favorite, and every number on the program was the occasion for a repeated and spontaneous encore to which they graciously responded.

FEET SWOLLEN TO IMENSE SIZE.

"I had kidney trouble so bad," says J. J. Cox, of Valley View, Ky., "that I could not work, my feet were swollen to immense size and I was confined to my bed and physicians were unable to give me any relief. My doctor finally prescribed Foley's Kidney Cure which made a well man of me." Sold by C. C. & J. E. Stormes.

SEE A PLATE, PICK IT UP, IF IT IS A DIAMOND PIN.

"I was treated for three years by good doctors," writes W. A. Greer, McConnelville, O., "for piles and fistula. But when all failed, Bucklen's Arnicia Salve cured me in two weeks." Cures Burns, Bruises, Cuts, Corns, Sores, Eruptions, Salt Rheum, Piles or no pain. 25c at R. E. McRoberts and Fish and Co. drug stores.

All in the mind—obedience.

A BOY'S WILD RIDES FOR LIFE.

With family around expecting him to die, and a son riding for life, 18 miles, to get Dr. King's New Discovery for Consumption, Cough and Colds. W. H. Brown, of Leesville Ind., endured death's agonies from asthma, but this wonderful medicine gave instant relief and soon cured him. He writes: "I now sleep soundly every night." Like marvelous cures of Consumption, Pneumonia, Bronchitis, Cough, Colds, and Grip prove its matchless merit for all Throat and Lung troubles. Guaranteed bottles 50c and \$1.00. Trial bottles free at R. E. McRoberts and Fish and Co. drug stores. Paint Lick Ky.

### Beware of The Knife.

No profession has advanced more rapidly of late than surgery, but it should not be used except where absolutely necessary. In cases of piles for example, it is seldom needed. DeWitt's Witch Hazel Salve cures quickly and permanently. Unqualified for cuts, burns, bruises, wounds, skin diseases. Accept no counterfeits. "I was so troubled with bleeding piles that I lost much blood and strength," says J. C. Phillips, Paris, Ill. "DeWitt's Witch Hazel Salve cured me in a short time." Sooths and heals.

Any woman can keep a secret pertaining to the fact that her new dress is but an old one made over.

Engaging Summer Chills.

Don't let a cold run at this season. Summer chills are the hardest kind to cure and if neglected may linger along for months. A long siege thus will pull down the strongest constitution. One Minute Cough Cure will break up the attack at once. Safe sure, acts at once. Cures coughs, colds, croup, bronchitis, all throat and lung troubles. The children like it.

A man must put his best foot forward as well as forward if he would reach the top of the ladder.

A Sad Disappointment.

Ineffective Liver medicine is a disappointment, but you don't want to purge, strain and break the glands of the stomach and bowels. DeWitt's Little Early Risers never disappoint. They cleanse the system of all poison and putrid matter and do it so gently that one enjoys the pleasant effects. They are a tonic to the liver. Cure biliousness, torpid liver and prevent fever.

The girl who boasts of being a good "dy-peope" either marries a fool or remains single all her days.

DOCTOR'S CURE FOR WARTS.

Children often cry, not from pain but from hunger, although fed abundantly. The entire trouble arises from indigestion, their food is not assimilated but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once, very much to the surprise and joy of the mother. 25c at R. E. McRoberts drug store.

It's not an easy thing to consider one banquet-cracker a good square meal.

Raised From the Dead.

C. W. Landis, "Porter" for the Oriental Hotel, Cincinnati, says: "I know what it was to suffer with neuralgia dead I did, and I got a bottle of Billard's Snow Liniment and I was raised from the dead." I tried to get some more, but before I had 'deposited' of my bottle, I was cured entirely. I am tellin' de truth too." 25c, 50c and \$1.00 at R. E. McRoberts druggist.

# CATARRH

The treatment of Catarrh with antiseptic and astringent washes, lotions, salves, medicated tobacco and cigarettes or any external or local application, is just as senseless as would be kindling a fire on top of the pot to make it boil. True, these give temporary relief, but the cavities and passages of the head and the bronchial tubes soon fill up again with mucus.

Taking cold is the first step towards Catarrh, for it checks perspiration, and the poisonous acids and vapors which should pass off through the skin, are thrown back upon the mucous membrane or inner skin, producing inflammation and excessive flow of mucus, much of which is absorbed into the blood, and through the circulation reaches every part of the system, involving the Stomach, Kidneys and other parts of the body. When the disease assumes the dry form, the breath becomes exceedingly foul, blinding headaches are frequent, the eyes red, hearing affected and a constant ringing in the ears. No remedy that does not reach the polluted blood can cure Catarrh. S. S. S. expels from the circulation all offensive matter, and when rich, pure mucus membranes become healthy and the skin active, all the disagreeable, painful symptoms disappear, and a permanent, thorough cure is effected.

S. S. S. being a strictly vegetable blood purifier does not derange the Stomach and digestion, but the appetite and general health rapidly improve under its tonic effects. Write us about your case and get the best medical advice free. Book on blood and skin diseases sent on application.

## Will Try New Plan.

The electric light committee of the city council will recommend meters for both residences and business houses. The cost of meters will be \$15, but at the end of the year the company will refund the money. It is said that a flat rate will be made as follows: Residences, under ten lights, 35c per light over that number, 25c. Business houses, under ten lights, 50c over that number, 35c.—Nicholasville Journal.

## Gilbert to Take the Stump.

The Hon. George G. Gilbert, Democratic nominee for Congress in the Eighth district, has made the following speaking appointments:

Lancaster, Monday, September 22.  
Paint Lick, Friday, September 26.  
Bryantsville, Saturday, Sept. 27.  
Richmond, Monday, October 6.  
Berea, Saturday, Oct. 11.  
Kirksville, Saturday, Oct. 11.  
Danville, Monday, Oct. 20.  
Crab Orchard, Tuesday, Oct. 21.  
Stanford, Thursday, Oct. 23.

The appointments are for 1:30 p.m. The Republican nominee is invited to be present, and will be given an equal division of the time.

## Note.

As successors to Austin, Kemper & Co., we deem it proper to say to the public that the above firm no longer exists, Mr. Kemper having withdrawn and accepted a position as salesman and solicitor for II B Northcott. However, we shall be pleased to receive your orders for coal, and will endeavor to please you both in price and quality. Give us a trial. W. P. Walden & S. T. Leavel. Telephone 41.

Mat Cohen, of Richmond, Ky., reports sale of highly bred 4-year-old gelding, Jack O'Diamonds, by Dorsey Golddust, out of a mare by King Kurtey. The sale was made to Jack Spratty, of New York. The price was \$2,250. Mr. Cohen thinks this the highest price gilded gelding ever sold in Kentucky. He has quite a record as winner in the show rings.

Foley's Kidney Cure makes the diseased kidneys sound so they will eliminate the poisons from the blood. Sold by C. C. & J. E. Stormes.

A combination that has never been fruitful of good results is that of trying to grow an exposed garden and poultry at one and the same time. No hen on earth can refrain from scratching in the very inviting beds nor can resist the nice green morsels as they appear in the garden. A garden is all right and so are hens, each in their separate places, put the combination cannot be made without ample fencing. Either the hens must be fenced in or out—in the pens or out of the garden. It is better to fence the garden than the hens.

## Recommendation.

Hubble, Sept. 13, 1902.

We the undersigned have seen an Ideal Deering Corn Binder at work on Mr. McKechnie's farm today and can say, while it was tried in corn field ripe, and on ground that was very steep, it did splendid work, in fact, we could not ask for a corn binder to do better work than it does, as it does the work as well as a wheat binder does in a wheat field. It knocks off more corn than a man will cutting it by hand, and we take pleasure in recommending it to be all they claim for it.—Signed: R. L. McKechnie, A. P. Sloan, S. P. Weaver, T. C. Rankin, C. C. Gover, Robert Rankin, Fred Yockey and J. M. Rankin.

## Lost in a Wilderness.

A Kansas editor, who contracted the habit of going to church, has this to say: "Ladies should take off their hats in church. No preacher can inspire a man who is looking into a lipped aggregation of dead birds, stuffed weasels, chameleon skins, ribbons, beads, sticks, straws, corn tassels and thistle down. It makes a sinner feel lost in the wilderness."

The man who rustles with the cow and learns the calf to suck; who casts the corn before the swine is now in greatest luck; for butter is the upper grade, veal is higher than a kite, pork is climbing up the scale and beef is out of sight. The eggs he gathers every day from his Poland China coop are almost worth their weight in gold, and we are in the soup. His corn brings a fancy price, its rising every day, and he rakes in all kinds of money for a half a ton of hay. The farmer is in the saddle and when he comes to town, the rest of us by right should go "away back and sit down."

There will be no obstructed periods. The ever recurrent and the monthly moon will follow regularly upon the calendar for a year.

# NATURE.

## Woman's Constitution.

Beginning at the time when girlhood blossoms the true womanhood, through all her life, until the last days of cold and suffering age, women's days of cold and suffering are many, as the moon continues everlastingly to grow and wane, bringing with her headache, chills, discomfort and depression; yet she bears her trouble and with rare courage. The only relief she needs is in the quiet and strength of herself, insuring quiet nerves and rest.

BRADFIELD'S FEMALE REGULATOR will warm her through and through, alleviate her suffering, relieve that depressing pain, strengthens her nerves, drive away that sinking dull faintness, stop the headache, remove the rheumatic pains, kiss, and carry her safely and comfortably through her trouble.

In spite of hard times the value of farm animals in Germany is increasing at the rate of four millions a year.

Plowing for winter wheat is progressing and farm work is well up.

The late census bulletin shows that the value of the milk sold and consumed, and the butter and cheese made on farms in the United States for the census year was \$472,369,225, and that the value of eggs and poultry the same year was \$281,178,035.

The Wisconsin dairy industry employs 1,700 hands at an annual cost for wages of nearly \$1,000.

Showers visited nearly all sections of the State during the first of the week; this was followed by dry and very cool weather. Local wind and hail storms did some damage, but the area affected was small. The rainfall was very beneficial, especially in the drought-stricken counties of the south-central and western districts.

W. P. Hatchett, of Mackville, Ky., bought four mules, ages ranging from two to three years, from different parties at \$75 to \$100 per head.

Georgia is the peach State of the Union, having 7,000 peach bearing trees. Next in Maryland, with 4,015,000, then New Jersey, with 2,700,000, and Delaware, with 2,400,000.

Corn shows considerable improvement. The drought had nearly ruined some of the early fields in the dry counties, but the later planting is quite promising. Warm weather is needed to mature and ripen it. The crop for the whole State will probably be above the average.

W. C. Curran, of Danville, sold a few days ago a good work mule to Jake Brown for \$125. Mr. Brown also purchased nine head of broke mules in the Gravel Switch neighborhood last week at from \$70 to \$117 per head.

Of the six hundred weeds and grasses growing in the Northwest, it is estimated that those that have made a study of it sheep will eat 55% of them, while horses consume but 8% and cattle only 5%.

Irish potatoes are very good and sweet potatoes fair. There is a fair hemp crop and cutting has begun. Sorghum is doing well.

Tobacco has improved considerably, but is not in a satisfactory condition. It is very irregular, some fields being fairly good and others very poor. The Burley districts report more favorable conditions than the dark tobacco counties of the western section, but the crop, as a whole, will be far below the average in yield and quality. Cutting has begun in the early fields.

Special reports on apples and peaches indicate that peaches are practically a failure, not averaging more than
